

The WAB-GROUP® is an innovative, globally operating, and leading mechanical engineering group specialize process technology solutions. From our headquarters in Muttenz, Switzerland, together with our 6 subsidiaries and more than 40 local distribution partners, we serve our customers worldwide.

For our headquarter in Muttenz we are looking for a committed person with experience in process engineering as

Manager Process Technology Centre (m/f/d)

In this demanding position, you will coordinate the entire Process Technology Centre (PTC) division in an international environment, with full responsibility for a dynamic team of 3 employees.

Your responsibilities:

- Professional, personnel, and administrative management of the PTC
- Planning and preparing experiments in coordination with Sales and Research & Development
- Conducting and evaluating experiments in collaboration with customers
- Technical support of the PTC teams within the entire WAB-GROUP® (4 PTCs worldwide)
- Consultative support for chemical and process engineering matters within the WAB-GROUP®
- Support with process optimizations and new application areas
- Advising and supporting management in handling chemical products as the Chemical Safety Officer

Your profile:

- Degree in Process Engineering, Chemical Engineering, Bioengineering, Chemistry-, or Nanotechnology (ETH/Uni/FH)
- Passion for further and new developments and enjoyment in dealing with customers
- Several years of professional experience in the chemical industry
- Knowledge in handling hazardous substances, bulk materials, liquids, and ATEX environment is an advantage
- Preferably experience in the areas of dispersing, grinding, mixing, and flow chemistry
- Excellent organizational skills and the ability to work independently and responsibly
- Fluent in German and English
- Willingness to travel (approx. 5%)

We offer you:

- Diverse and challenging tasks
- High level of independence and responsibility
- Contemporary employment conditions
- Modern working environment
- Attractive pension scheme

We look forward to receiving your complete electronic application and answering your questions.
